1. BQFIEND in Athens has received the following letter from a highly sensitive Greek source. Contents of this letter must not be revealed:

"From: Raka Hatip  
Munich, Germany

To: Dilaver Dine  
Greece

July 14, 1953

Dilaver, you want me to tell you about the situation of the (Mil) company here. Here is the truth. One can tell you that it is something like it is in Russia. We have been civilized so much that they are bringing us pork meat three times a week. They are trying to destroy our religion. The officers who belong to the Balli (Agrarian) are the ones who are responsible for this. All of them eat pork, and they have said that whoever does not eat pork is not a Ballist. Due to this 100 persons are staying without food. Although we have complained against pork meat, we have not brought any results. Our word has no weight, because they have the power in their hands. We have written to our Organization (about this). Our Organization advises us to have patience, and we do not know how long we will have to tolerate these who have no religion (in themselves). We would have been better off, if we had collaborated with Hodsha or with those abominables, because these guys are worse. There are other companies like ours, but ours is different, because ours has a political purpose. The company of the Bulgarians is far away, at Frankfurt. There are other ones with Poles, Czechs, Caucasians, etc."

Remark: The Koran forbids the eating of pork meat.

2. No doubt this problem has already been solved, but for our own interests and those of Albanians with whom we work, we would appreciate knowing what action has been taken.
